Bowman Sculpture Gallery announces Metamorfosi, the highly anticipated second UK solo exhibition by contemporary Italian sculptor Massimiliano Pelletti. Massimiliano Pelletti’s exhibition opening night will also celebrate the unveiling of Bowman Sculpture’s newly expanded and redesigned space.

About

This reimagined interior marks a new chapter for Bowman Sculpture, continuing the evolution of the gallery under the direction of Mica Bowman, who joined in 2018, and since then has made great strides in her mission to introduce more contemporary sculptors and rising stars of the sculpture world—including acclaimed Italian sculptor Pelletti—to the exhibition programme alongside revered sculptors of history such as Rodin.
